Professional Technical Translators

We employ an extensive network of translators covering over 100 languages. Northwest Translations has earned a reputation as one of the most competent and reliable translators in the industry. Our translators comply to the ISO 17100 Translation Service Provider Standard. Each translator is a native speaker of the target language and has extensive experience in the subject/field being translated.

Quality Assurance

Each project team consists of a professional translator and an independent editor, both with specific subject area expertise as well as native speakers of the target language. Northwest Translations assigns one project manager to work with individual clients to act as a liaison to ensure that our clients receive customized service. This team approach enables Northwest Translations to provide clients with a multi-step quality assurance process ensuring high-quality, accurate translations as if they were originally developed in the target language.

Certified Translation

A Certificate of Translation will be provided upon completion of the project at no charge. This Certificate includes the name of the document and the language for submission to the FDA or any other legal purpose.

Summary/Draft Translations

Summary/Draft translations provide our clients with an overview of a document at a much lesser cost.
